Wb 17.11.2025 – Spellings: 'shul' endings

Can you sort the **word beginnings** and root words into the table according to their /shul/ ending?

When you have added '-cial' or '-tial', sort out the **exception words** and explain why they are exceptional. The first one is done for you.

Remember – if the word beginning ends with a **vowel**, it usually uses '-cial'. If the word beginning ends with a **consonant**, it usually uses '-tial'. Beware of the **exception words**! Sort them into the separate section of the table.
